-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 13 November 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 4-8 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.
2. Claim 1 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 in the preamble claims analyzing “organic absorbent layers” (emphasis added) in the plural. However, every other time claim 1 refers back to the organic absorbent layers, it is done in singular as if there is only a single “organic absorbent layer” when according to the pre-amble there are clearly more than one organic absorbent layer.
3. A substitute claim set in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 rejected under 35 U.S.C. 102(b) as being anticipated by Sandstrom et al. ("Visual Detection of Organic Monomolecular Films by Interference Colors", hereinafter Sandstrom).

### **Claims 1-3**

Sandstrom discloses a method for analyzing organic adsorbent layers on a glass or plastic substrate (claim 3, pg. 476, left col., last paragraph, line 2), the method comprising the following steps of providing a substrate with a surface, the substrate having an index of refraction equal or close to the index of refraction of the organic adsorbent to be analyzed (pg. 476, left col., last paragraph), applying a layer system to the surface of the substrate, the layer system comprising at least one layer with index of refraction significantly different from the index of refraction of the biological material (pg. 476, left col., last three paragraphs), applying the organic adsorbent layer on top of the layer system act polarized light upon the substrate (pg. 477, right col., first three paragraphs), detect in reflection and/or transmission the change of polarization characteristics of the light acted upon the substrate (pg. 478, right col., first two paragraphs).

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JUAN D. VALENTIN whose telephone number is (571)272-2433. The examiner can normally be reached on Mon.-Fri..
